

Getting Started with CCCTC Product Solutions in 3 Easy Steps

The California Community Colleges Chancellor's Office (CCCCO) and the California Community Colleges Technology Center (CCCTC) have teamed up to provide California Community Colleges (CCC) with a suite of no-cost software solutions geared toward improving student outcomes, increasing college efficiency, and strengthening the CCC as a whole. Deployment services are included.

1 - Learn about the solutions available to my college:

Read the information below to learn about all of the product solutions provided by the CCCCCO and CCCTC at no cost to the college, including deployment services. Visit www.ccctechcenter.org to learn more.

2 - Contact your College Relationship Manager (CRM) to get started:

Your CCCTC College Relationship Manager (CRM) will help you learn more, and get you started. If you do not know your CRM, simply send an email to crms@ccctechcenter.org to get acquainted.

CRM's Name: _____

CRM's Email/Phone: _____

3 - Begin to sketch out your college's product adoption plan:

Working with your CRM, use the following table to map out your college's desired "**START** of deployment", and "**GO LIVE**" timeframes for each product solution.

| Product Solution | Product Overview | Prerequisite | CONTACT FOR ADOPTION (NAME / DEPT) | ADOPTION PLANNING | | | | | ALREADY IN USE |
|--|--|---|---------------------------------------|-------------------|--------|--------|------|-----------|----------------|
| | | | | WINTER | SPRING | SUMMER | FALL | NEXT YEAR | |
| Accessibility Center | Technical assistance, training, and resources specific to assistive technology, alternate media, and web accessibility topics to help colleges identify and improve access for individuals with disabilities . Visit https://cccaccessibility.org/ . | None | | | | | | | |
| Career Coach | Provides students with career, salary, and employment data, and recommends college programs for careers. Visit https://www.economicmodeling.com/student-success/ . | <ul style="list-style-type: none"> • SSO Proxy • CCC MyPath | | | | | | | |
| CCCApply (Standard Application) | Application for non-international students to apply for California Community Colleges . Includes non-credit application. Visit https://ccctechcenter.org/projects/cccapply . | <ul style="list-style-type: none"> • SSO Proxy • OpenCCC | | | | | | | |
| CCCApply (Noncredit Application) | This is a feature set of the Standard Application deployment and provides admissions application exclusively for noncredit students . This feature is deployed separately as it does not include residency determination. | CCCApply (Standard Application) | | | | | | | |
| CCCApply California College Promise Grant | Digital version of the California College Promise Grant (formerly BOG Fee Waiver). Includes assistance for the purchase of books and supplies. | <ul style="list-style-type: none"> • CCCApply | | | | | | | |
| CCCApply International Application | Application for international students to apply for California Community Colleges using CCCApply. | <ul style="list-style-type: none"> • CCCApply | | | | | | | |
| CCCDData Warehouse | Systemwide data warehouse stores data gathered from CCCTC products (CCCApply, Canvas, Multiple Measures, CCC MyPath, etc) Sourced through Project Glue Microservices, Kinesis, and AWS Data Pipeline. Basic availability to all colleges via .csv file or, as a more fully functional option, through the Staging Table option configured by CCCTC Enabling Services. | SSO Proxy Canvas College Adapter (for Staging Table option) | | | | | | | |
| CCC MyPath | Customizable Guided Pathways onboarding system which provides dynamic onboarding and guidance experience based on student-provided information. Provides various student services, such as Financial Aid and Online Orientation, and access to placement data, and will become the launching pad for most CCCTC products. See https://ccmypathproject.org/ for more information. | <ul style="list-style-type: none"> • SSO Proxy | | | | | | | |
| eTranscript California | Supports the requesting and delivery of electronic transcripts across all of California's postsecondary systems. Visit | <ul style="list-style-type: none"> • EdExchange (pesc.org) | | | | | | | |

| | | | | | | | | | | |
|--|---|--|--|--|--|--|--|--|--|--|
| | https://www.etranscriptca.org/ for more information. | <ul style="list-style-type: none"> • SuperGlue | | | | | | | | |
| InCommon Federation | Provides a trust fabric for higher education, their vendors, and partners to facilitate single sign-on from local campus accounts. Chancellor's Office and the CCCTC have facilitated InCommon memberships for all California community colleges to be paid centrally. Visit https://ccctechcenter.org/projects/sso-federation . | <ul style="list-style-type: none"> • SSO Proxy | | | | | | | | |
| Library Services Platform | Working with the Council of Chief Librarians, California Community Colleges, the Library Services Platform is a new cloud-based library management system for use by all CCC libraries. It replaces existing college/district stand-alone systems. Visit https://ccctechcenter.org/projects/library-resources . | <ul style="list-style-type: none"> • SSO Proxy | | | | | | | | |
| Multiple Measures Placement Service (MMPS) | Facilitates collection of high school transcript data and delivery of AB 705-compliant placement recommendation (self reported data from CCCApply, verified data from CCGI or CALPASS). | <ul style="list-style-type: none"> • SuperGlue • College Adapter • CCCApply • CCC MyPath | | | | | | | | |
| OpenCCC | Student account system which provides administrative access for OpenCCC student applications, and streamlines the admissions process. See https://ccctechcenter.org/projects/openccc . | <ul style="list-style-type: none"> • SSO Proxy | | | | | | | | |
| Information Security Center | The Information Security Center proactively assesses the information security needs of the community colleges , and offers services to CCC campuses designed to maintain the integrity of information systems, including vulnerability assessment scanning, server monitoring and security awareness training. Visit https://ccsecuritycenter.org . | None | | | | | | | | |
| SSO Proxy "Authentication" | California Community Colleges Single Sign-on Federation (SSO) "Authentication" is the process of verifying a student or staff member at a college using the SSO Proxy. Provides users single sign-on convenience and privacy protection. Configuring SSO Proxy with Canvas, SuperGlue, and the Library Services Platform further expands efficiency and user experience. https://ccctechcenter.org/projects/sso-federation . | <ul style="list-style-type: none"> • District level IdP for staff and student accounts | | | | | | | | |
| SuperGlue <i>(formerly "Project Glue")</i> | Provides a secure, robust framework for data exchange between Chancellor's office products and colleges. The College Adapter is installed locally behind a college's firewall to facilitate data exchange between CCCTC products and the Student Information Systems (SIS) used by a college. SuperGlue enables disparate SIS to communicate in a standardized way through a cloud service, and provides a single point of reference for which systems are considered "systems of record" for specified data elements and data exchange interactions. Keeps college data synced with CCCTC centralized applications like CCCApply, OpenCCC, and CCC MyPath. For more information, visit: https://ccctechcenter.org/projects/systemwide-technology-platform https://ccctechcenter.org/projects/project-glue | <ul style="list-style-type: none"> • SSO Proxy supplied CCCID as required by product | | | | | | | | |

| | | | | | | | | | |
|-----------------------------------|---|---|--|--|--|--|--|--|--|
| Unlimited SSL Certificates | Secure Socket Layer Certificates. Available for no charge as part of InCommon Membership. For information, see https://ccsecuritycenter.org/services/ssl-certificates . | <ul style="list-style-type: none">• InCommon Federation | | | | | | | |
